2013 Municipal Population Estimates Released

In May, the U.S. Census Bureau released municipal population estimates for 2013. Overall, the state's population has changed very little over the past three years, posting a slight gain between 2012 and 2013. However within the state, our cities and towns are growing and declining at different rates. This month's Census Data Bulletin explores some of the recent municipal population estimates data and compares them with the Census 2010 counts. Read it online <http://www.planning.ri.gov/geodeminfo/data/bulletin.php>
